Risk level		Action required/approval
Low	Little chance of incident or injury	✓ Obtaining parental permission is recommended

Description

Apex Camps offers a variety of accommodation options for school's and groups whilst staying onsite. All children accommodation is provided in bunk beds in cabins and Supervisors accommodation in single beds.

Bunk Bed Recommendation

Top bunks and elevated beds are dangerous and are NOT recommended for children under nine years old.

Group Supervision

All groups/schools staying with Apex Camps must be accompanied by responsible adults for the duration of their stay. Teachers/Supervisors are responsible for controlling all behavioural issues from the camp attendees at all times, including during activities.

First Aid/Accident/Incidents/Injuries

Supervisors/Teachers are responsible for supplying all first aid items required during their stay. It is mandatory that all accidents/incidents and injuries be reported to APEX staff and the appropriate paperwork be completed whilst on camp.

In assessing the level of risk, considerations such as the likelihood of an incident happening in combination with the seriousness of a consequence are used to gauge the overall risk level for an activity. The matrix below has been used as a guide to assist with developing the risk assessment:

Likelihood	Consequence				
	1 Insignificant	2 Minor	3 Moderate	4 Major	5 Critical
5 Almost Certain	Medium	Medium	High	Extreme	Extreme
4 Likely	Low	Medium	High	High	Extreme
3 Possible	Low	Medium	High	High	High
2 Unlikely	Low	Low	Medium	Medium	High
1 Rare	Low	Low	Low	Low	Medium

Risk Level	
Low	Little chance of incident or serious injury.
Medium	Some chance of an incident and injury requiring first aid.
High	Likely chance of a serious incident and injury requiring medical treatment.
Extreme	High chance of a serious incident resulting in highly debilitating injury.

Listed below are the indicative hazards/risks and the control measures.

Hazards/Risks	Control Measures
Fire <ul style="list-style-type: none">• Burns• Scalds• Smoke Inhalation	<ul style="list-style-type: none">• No open flames are allowed on site• Smoking is to be conducted in the designated smoking area off site• No gas stoves/cooktops allowed on site• No self catering allowed on site• In the event that there is a fire, all people on site are to evacuate to the Emergency Evacuation Area.
